

Uthoff Hybrids is a multi-generational owned and operated family farming business located south of Cedar Rapids, Iowa. Founded in 1978 by Vince and his parents, Orville & Marie. Since 1996, Vince & Ann Uthoff have operated the business. In 2018 Jordan & his wife Kaci joined the family business. We pride ourselves on being a regional seed corn company. We also farm, raise cattle, so we know what issues farmers can face during the year. We produce, condition, and sell top yielding hybrids. Our goal has always been to provide quality seed at a reasonable price. Our customers have always said 'We have had good luck' with Uthoff Hybrids' 'The Good Luck Corn'.

**2023**

## U099 99 Day

Excellent agronomics on a hybrid that can go north very well. Can be planted early season south of Highway 30 for early harvest without sacrificing yield.

## U301 101 Day

Excellent corn on corn conventional hybrid. Long girthy ear. Work well on all types of soils. Good fall appearance and stay green. Fair Goss's Wilt resistance.

## U303 103 Day

Conventional only hybrid with a medium plant height with good fall intactness. This hybrid brings a good disease control package for gray leaf spot and Goss's Wilt. This hybrid has showed

## U404 104 Day

New for 2023! Medium plant height, will high test weight. Excellent Goss's wilt and tar spot ratings. Good Late season health and agronomics. This hybrid does not need high plant populations for best results.

## U405 105 Day

Strong Tar spot and Goss's Wilt performance. Good ear girth with 18-22 rows per ear. Hybrids does not need high planting populations for best results.

## U206 106 Day

Medium ear placement & good stalk strength. Very high root rating, large girthy ears with deep kernels. Very good ear flex.

Suggested 30,000-32,000 pop. Likes productive soil and moderately productive soil alike.

## U406 106 Day

Conventional only hybrid with medium plant and ear heights. This is an established hybrid with consistent yield results in the low to medium productive soils.

## U307 107 Day

Hybrid for the most productive part of the farm. Excellent top end yield potential. Late flowering, with quick dry down. Expect 16-18 rows per ear consistently.

## U308 108 Day

Conventional only hybrid. White cob hybrid with an attractive late season appearance.

Expect deep kernels with girthy ears.

## U209 109 Day

Tall hybrid works well across variable soil types and environments. Good choice in our lineup for silage corn for tonnage. Same female parent as U206. Available in conventional only.

## U111 111 day

Medium plant & ear height. Consistently high yielding with girthy flex ear, deep kernels. Very good stalks and roots. Strong Goss's Wilt rating. Excellent dry down. Best south of Hwy 20.

## Liberty Link Hybrids

### U106LL 106 Day

Tall plant with high ear placement. Healthy plant, good silage hybrid. Large girthy ear with deep kernels and open husks. Strong stalks & roots. Stays green late season. Widely grown genetics with good Goss' Wilt rating.

### U407LL 107 Day

Good stress hybrid with Liberty Link resistance. Improved stalks, roots and late season intactness from other Liberty Link Only Hybrids.

### U208 LL 108 Day

Good Goss's Wilt & Northern corn leaf blight resistance. Set pop. @ 30,000-34,000 short husks on semi-flex ear.
