

Liberty Link Hybrids

U109LL

109 Day

Our largest selling hybrid with Liberty Link trait. Offers high yield potential. Semi-flex ear. Good plant health. Medium tall plant. Corn bores have targeted this hybrid in the past.

Liberty®, LibertyLink® and Water Droplet logo are registered trademarks of BASF.

Uthoff Hybrids is a multi-generational owned and operated family farming business located south of Cedar Rapids, Iowa. Founded in 1978 by Vince and his parents, Orville & Marie. Since 1996, Vince & Ann Uthoff have operated the business with support from their children. Fall of 2018 their oldest child Jordan & his wife Kaci joined the family business. We pride ourselves on being a regional seed corn company. We also farm, raise cattle, so we know what issues farmers can face in season. We produce, condition, and sell top yielding hybrids. Our goal has always been to provide quality seed at a reasonable price. Contact us if you have any questions!

Herculex Trait Hybrids

U109Hx
109 Day

Corn borer resistance in our most popular full season hybrid. Medium ear & plant height. Excellent standability. Semi-flex ear with large kernels, nice dry down.

HERCULEX® I
Insect Protection

Liberty®, LibertyLink® and the Water Droplet logo are registered trademarks of BASF. HERCULEX® and HERCULES Shields are trademarks of Dow AgroSciences LLC.

Seed products with LibertyLink (LL) trait are resistant to herbicides glufosinate ammonium, an alternative to glyphosate in corn, and combine high-yielding genetics with the powerful, non-selective, post emergent weed control of Liberty herbicide for optimum yield and excellent weed control. LibertyLink, Liberty and the Water Droplet logo are registered trademarks of BASF Corporation.

Agrisure Traits Hybrids

U099-3110
99 Day

New for 2022! Glyphosate and liberty tolerance with Agrisure Viptera 3110 insect control. Excellent agronomics on a hybrid that can go north very well. Can be planted early south of Highway 30 for early harvest without sacrificing yield.

U102-3110
102 Day

Top end yield with strong test weight. Widely adapted hybrid with good fall appearance. This hybrid will perform consistently across all soil types and

conditions.

3111-08

108 Day

Glyphosate, Liberty, Corn borer, Root-worm and Viptera Version of 3110 genetics. Likes high population. Lists @ \$240.00/bag. Plot winner in 2017 in Ely and Keystone.

Agrisure® and Agrisure Viptera® are trademarks of a Syngenta Group Company.

Liberty Link Hybrids

U106LL
106 Day

Tall plant with high ear placement. Healthy plant, good silage hybrid. Large girthy ear with deep kernels and open husks. Strong stalks & roots. Stays green late season. Widely grown genetics with good Goss' Wilt rating.

U407LL
107 Day

Good stress hybrid with Liberty Link resistance. Improved stalks, roots and late season intactness from other Liberty Link Only Hybrids.

U208 LL
108 Day

Good Goss' Wilt & Northern corn leaf blight resistance. Set pop. @ 30,000-34,000 short husks on semi-flex ear.
